

Celebrating 130 years of Longy!

5 - 6 October 2019

As one of Victoria's leading tertiary providers of agricultural training since 1889, Longerenong College is undoubtedly a farming icon in the cropping heartland of western Victoria.

This year marks 130 years since the College first opened its doors. A lot has changed in farming practices since then, but our commitment to building rewarding careers whilst upholding the traditions of pride and mateship is still going strong. As anyone with links to Longerenong knows, it is much more than a College and time spent here becomes an integral part of our lives.

Please join us to celebrate this magnificent milestone and spread the word to all past and present students, their friends and family members so we can all come together to relive the past as well as rejoice in the future of our 'Longy'.
